

WESTERN® Snowplow Pre-Delivery Inspection

Please review the following prior to snowplow delivery:

- _____ Verify that the snowplow properly attaches and detaches from the vehicle.
- _____ Verify that the A-frame/T-frame of MVP PLUS™ and MVP 3™ snowplows is properly configured to the vehicle as described in the Installation Instructions and Owner's Manual.
- _____ Verify that all wiring harnesses and battery cables are properly secured away from hot or moving parts, as described in the Installation Instructions (lit. #29206).
- _____ Verify that dielectric grease has been applied to all electrical connections, as described in the Installation Instructions (lit. #29206).
- _____ Verify that all vehicle and snowplow lights are adjusted and working correctly as described in the Owner's Manual.
- _____ Verify that all hydraulic hoses are properly routed, free of twists and kinks, and away from any pinch points. Verify that the hose wrap on MVP PLUS™, MVP 3™ and WIDE-OUT™ snowplows is located correctly to prevent hoses from getting caught between the stacking stops and the frame, and to prevent chaffing on the back of the blade.
- _____ Verify that all hydraulic hoses are tight and that there are no leaks.
- _____ Verify that the hydraulic fluid has been properly topped off as described in the Owner's Manual.
- _____ Verify that the stand shoe is properly adjusted.
- _____ Verify that the stacking stops are adjusted correctly on MVP PLUS™ and MVP 3™ snowplows as described in the Installation Instructions.
- _____ Verify that all pivot points are properly lubricated as described in the Owner's Manual.
- _____ Verify that the lift chains are properly adjusted for optimum transport height and to allow for float. Verify that the blade does not block the snowplow lights.
- _____ Adjust drop speed as needed. See the Owner's Manual and Installation Instructions for more information.
- _____ Verify that all snowplow functions are working correctly.
- _____ Verify that the customer has received the Owner's Manual and Owner's Registration Card.

Thank you for purchasing a WESTERN® product. Please find your product documentation at:

<http://library.westernplows.com>

Use the Quick Search tool or follow the links on the page to locate your documentation.

For best results, we recommend that you use Quick Search and enter the part number for your product in the search box.

If you cannot access the Internet in any fashion, you may request product documentation by writing to:

ATTN: Customer Support
Western Products
7777 N 73rd Street
Milwaukee, WI 53223

Please be sure to include your mailing address and the part number purchased to ensure you receive the proper and complete documentation.
